**About Crusader**

Crusader Resources Limited (ASX:CAS) is a minerals exploration and mining company listed on the Australian Securities Exchange. Its major focus is Brazil; a country Crusader believes is vastly underexplored with high potential for the discovery of world class mineral deposits.

Crusader's key assets include the Borborema Gold Project in north eastern Brazil. The company has >4,400 km<sup>2</sup> of exploration tenements in the Seridó Belt, a highly prospective geological structure which hosts the Borborema Gold Project. This region is under explored and could provide Crusader with a pipeline of high growth, greenfields gold discoveries.

Crusader also owns the Posse Iron Ore Project near Belo Horizonte which produces high-quality iron ore for consumption in the Brazilian domestic iron industry.

**About Posse**

The Posse Iron Ore Project is located 30km from Belo Horizonte, a city acknowledged as the mining capital of Brazil and the capital of Minas Gerais state. The project has a Mineral Resource of 36Mt @ 43.5% Fe.

With an experienced mining workforce amongst a population of over 2.3 million people, the infrastructure and access to the domestic steel market around the Posse Project is excellent.

Sales commenced in March 2013.
